9th INTERNATIONAL CONFERENCE
ON BIOSCIENCE AND BIOTECHNOLOGY

Biosciences and Biotechnology
for Sustainable Development

Bali, September 20th-22nd, 2018

Seminar : September 20th - 21st, 2018
Workshop : September 21st - 22nd, 2018

Background

Bioscience and biotechnology innovations are already underpinning the sustainable development of agriculture, forestry, fisheries, veterinary, animal husbandry, health, medicine, and other primary product related industries. International Conference on Bioscience and Biotechnology (ICBB) of Udayana University facilitates researches and industries to present the latest research findings, share ideas and knowledge in the various bioscience and biotechnology fields. It will be two days conference with two days workshop which provides an ideal academic platform for research institutions, government, academy and industry scientists to discuss the latest advances in biotechnology and opportunities to establish multilateral collaborations and enhance the welfare of human beings. The theme of ICBB in 2018 is "Bioscience and Biotechnology for Sustainable Development".
